

Using an Image from a PDF File in PowerPoint

1. Open Photoshop
2. Select **File » Open** from the menu
3. Select the PDF file (Note: If the file has more than one page in it, Photoshop will ask you which page.)
4. Once page is in Photoshop, select the portion of the page you want with the marquee tool
5. Then **Image » Crop** from the menu
6. **File » Save a Copy** as jpeg
7. Open PowerPoint
8. **Insert » Picture**
